

**David Scott**  
**Sales and Product Development Engineer**

Dave has been with Minco for more than 10 years and has over 11 years experience in the manufacturing and testing of Fused Silica and the Investment Casting Process. Dave's current responsibilities include Sales, Research & Development and Technical Support for Customers.

Dave holds a Bachelor of Science (BS) in Biology & General Science from East Tennessee State University, and is a Certified Investment Casting Specialist from Pittsburgh State University. He is a member of the Investment Casting Institute and has authored papers on investment casting.

Dave's previous experience includes Process, Production, and Quality Supervision for Minco's Fused Silica Plant as well as Nuclear Fuel Services and AFG (Float Glass).
